Abdominal pain caused by vascular lesions, 358
Acidosis
  due to lack of oxygen in cardiopulmonary bypass, 671
  lactic, causes, 633, 683
Adams-Stokes syndrome, effects of altered posture in, 505
American College of Cardiology
  annual convention (1964)
    announcement, 134, 273, 421, 584
    exhibits, scientific, 750
    highlights of program, 274
    invitation to meeting, 272
    New Orleans, city of, 272
    scientific program, 886
  awards for 1964 announced, 583
  goodwill, international, promoted by, 131
  international circuit courses, 131
    No. 4, report of, 417
    No. 6 to Argentina and Uruguay, 748
    to Colombia and Chile, 891
  joint session with AHA and AMA announced, 583, 747
  Overseas Education Committee Report, 418
  President's Column, 131, 272, 417, 582, 747
  regional meeting programs
    Phoenix, 582, 749
    Syracuse, 274
  Workshop (4th) in Boston, 749
  Young Investigators' Awards 1964
    competition announced, 133, 137, 275, 422, 585, 751
    judges of, 582
Anesthesia
  deaths attributed to, 330
  effect on cardiac function during surgery, 317
  effect on cardiopulmonary function, 444, 464
  risk of, 330
  shock from, types by agent, 589
Aneurysm
  left ventricular, associated with fibroelastosis, 721
  of sinus of Valsalva
    congenital, surgery for, 100
    ruptured and repaired, 544
Anticoagulant therapy (see also *Drugs*)
  in Norway, 270
Aorta
  aneurysms of, diagnosis and surgical treatment, 303
  calcified thrombus obstructing isthmus of, 567
  coarctation of
    with aortic stenosis and patent ductus arteriosus, 570
    in infants with associated anomalies, 60
    simulated by calcified thrombus, 567
  occlusive disease of, diagnosis and treatment, 303
  rupture of sinus of Valsalva aneurysm, repaired, 544
  valvular disease of, surgery for, 40, 47, 53
Apexcardiogram, normal and abnormal, 368
Arrhythmia
  in acute renal failure, 841
  bigeminy due to vagal tone, 741
  digitalization for, during surgery, 464
  during sinus rhythm and heart block, 505
  ouabain-induced, controlled by potassium, 692
  parasystole, 527
  postoperative, 431
  in postoperative shock, 624
  pre- and postoperative, medical management in congenital heart disease, 334
  from quinidine-like substances affected by potassium, 702
  tachycardia terminated by electric countershock, 860
  ventricular parasystole indicative of heart disease, 527
Arteriography
  for carotid occlusion, 361
  in ischemic cerebrovascular disease, 300
Arteriosclerosis, in Israelis, by origin, 157
Arteriosclerotic heart disease, preoperative risk, 279
Atelectasis, postoperative, 458
Atherosclerosis
  myocardial infarction and, in the Bantu, 148
Atrial flutter
  congenital, with complete heart block, 575
  in pulmonary atresia, 254
Atrial septal defect
  criteria for surgery for, 66
  clinical features and development, 66
  with right to left shunt, 561
A-V block
  corrected transposition with, 875
  reverted to normal rhythm by digitalis, 414
A-V conduction, effect of synthetic oxytocin on, 523

Ballistocardiographic Research Society, abstracts, 579
Blood flow, continuous recording of, in baboons, 816
Blood volume in shock, 628
Book reviews
  Blood Vessels and Lymphatics (Abramson), 885
  Blood Volume (Albert), 130
  Chirurgie du Coeur: Bibliotheca Cardiologica Progres en Cardiologie, Vol. 3 (Hahn), 129
  Kreislaufdiagnostik mit der Farbstoffverdunungsmethode Kreislaufzeiten, Herzminutenvolumen, Blutvolumen, Klappeninsuffizienz, Shunt (Hegglin, Rutishauser, Kaufmann, Luthy and Scheu), 130
  Physical Diagnosis of Heart Disease (Fowler), 129
  Surgery in World War II, Thoracic Surgery, Vol. 1 (Coates, Berry and McFetridge), 885

Bronchial obstruction, aerosol therapy for, 461
Bronchospasm
aspiration and aerosol therapy for, 461
in surgical patient, 456

Carcinoid heart disease, operative intervention in, 864
Cardiac arrest caused by vagal hypersensitivity, 175
Cardiac catheterization
hydrogen test in pulmonary wedge position, 240
Cardiac output, calculation of, by forward triangle formula, 119
Cardiac resuscitation, measures of, 632
Cardiac vs. respiratory problems, postoperative, 441
Cardiopulmonary function, effect of anesthesia and surgery on, 444
Cardiovascular-pulmonary problems before and after surgery, evaluation and preparation of patients, 277–367
Carotid occlusion, indications for surgery, 361
Carotid sinus reflex, test of vagal hypersensitivity, 175
Cerebrovascular accidents, hypothermic stimulation in cats suggests a cause of, 781
Cerebrovascular disease, ischemic, surgery for, 300
Chelating agent, EDTA, 841
Cholesterol pericarditis, 721
Circulation
intracorporeal, prolonged during surgery, 399
extracorporeal
metabolic problems related to inadequate O_2 and trauma to blood elements, 671
neurologic complications of, during cardiac surgery, 480
Coagulation defects
with deficiency in factor v or prolonged "k" time, 339
following blood transfusion for cardiac surgery, 346
Conduction disturbances in congenital cardiac disease, 753
Conference, Postgraduate, in La Jolla, Dec., 1963, 420
Congenital anomaly
aneurysms of left ventricle associated with fibroelastosis, 721
aneurysm of sinus of Valsalva, surgery for, 100
atrial septal defect
with diastolic rumble and opening snap, 408
natural history and criteria for surgery, 66
with right to left shunt, 561
A-V block with atrial flutter, 575
classification of, physiologic, 126
coarctation of aorta in infants, surgery, 60
common atrioventricular canal, surgery for, 80
coronary arteries from pulmonary trunk cause myocardial infarction, 263
Ebstein's, diagnosis of, 169
inferior vena cava drainage into left atrium corrected, 561
medical management of problems related to, 334
patent ductus arteriosus and aortic stenosis combined with coarctation of aorta, 570
Congenital anomaly (*continued*)
pulmonary atresia, 254
pulmonary venous drainage, total, 98
tetralogy of Fallot
indications for sugery, 90, 95
postoperative problems, 334
transposition complexes, pathogenesis of, 216
transposition, corrected, with A-V block, 875
ventricular septal defect
criteria for surgery for, 75
with pulmonary stenosis, cube VCG in, 758
Congenital heart disease
conduction disturbances in, 753
Coronary artery
anomalous, from pulmonary artery, 263
compressibility of, by pulmonary artery distention, 406
obstruction, complete, by aortic hamartoma, 869
Coronary artery disease
complications affecting surgical risk, 279
and diabetes, ECG manifestations, 767
gastrointestinal disorders simulating, 354
with hypertension, 286
as surgical risk, clinical manifestations, 279
Corticosteroids, physiologic mechanisms of action, 342
Coxsackie virus cause of myocarditis, 736
Cyanosis with right intracardiac shunt, 561

Deaths
Wiggers, Carl J., 135
Dextran, influence on ECG in hypothermic dogs, 792
Diabetes
ECG indications of, 767
surgery in patient with, 636
Digitalis toxicity in acute renal failure and hemodialysis, 841
Digitalization
preoperative administration, 431
of surgical patient, 361
Dilatation, poststenotic arterial, related to turbulence in vessel, 802
Drugs
aeorsols
to clear airway, 461
in bronchospasm, 61
andrenergic agents, actions of, alter concepts of sympathetic nervous system, 711
anesthetics and cardiopulmonary function, 444
antibacterial agents for postoperative infection, 470
antibiotics during surgery, 469
anticoagulants
selection of patients for treatment with, 270
surgery in patient on, 309
use in operative patient, 365
vs. venous ligation in pulmonary infarction, 468
antihypertensive
pargyline hydrochloride and a thiazide, 822
physiologic points of action of, 291
postoperative, 464
preoperative, 286
anti-inflammatory, in perpheral vascular disease, 203

Drugs (*continued*)
Atromid, to lower lipids, 834
blocking agents
andrenergic, therapeutic use of, 619, 628
mode of action and use, 203
bronchodilators for bronchospasm, 457
Cholestyramine, to lower lipids, 834
corticosteroids, long term use of, in patients at time of surgery, 342
curare-like agents and steroids for neurologic complications of extracorporeal circulation, 480
dextro 3:5:3′ triiodothyronine, lipid-reducing properties, 884
Dibenzyline in shock therapy, 619, 628
digitalis
in acute renal failure, 841
pre- and postoperatively, 464
restored normal sinus rhythm in A-V block, 414
for surgical patients, 361
digoxin for cardiac failure in infancy, 334
diuretic agents, combined use, for edema, 828
Elipid, to lower lipids, 834
heparin
for the surgical patient, 365, 468
during ventricular surgery, 399
for intravascular clotting, 203
mannitol infusions in renal disease, 365
for peripheral vascular disease, 203
for postoperative fever, 476
oxytocin, synthetic, effect on A-V conduction, 523
reactions to, allergic and side, in operative patient, 349
respiratory stimulants during surgery, 468
thiazide, sulfonamide, promotes action of pargyline hydrochloride, 822
used in the average operation, 349
vasodilators, mode of action and use, 203
vasopressors
effects on hemorrhagic shock, 614
mephentermine in myocardial infarction, 423
metaraminol, 423
norepinephrine, 423
Drug therapy, postoperative, versus enhanced resistance, 470
Dietary factor
in lipid metabolism in Israelis by origin, 157
in myocardial infarction in the Bantu, 148

Edema, combined chemically different diuretics for, 828
Editorial, Deductive Electrocardiography and Vectorcardiography, 139
Electric countershock terminated ventricular tachycardia, 860
Electrocardiogram
analysis by computer, 270
changes in
after surgery, 516
during acute renal failure and hemodialysis, 841
in congenital heart disease, 753
dextran influence on, in hypothermic dogs, 792
Electrocardiogram (*continued*)
in Ebstein's anomaly, diagnosis of, 169
interpretation of, in conjunction with vectorcardiograms, 139
left axis deviation without known diseases, 767
in newborn, normal values, 482
patterns in, reflecting electrolyte concentration in myocardium, 656
in postoperative pulmonary embolism, 451
QRS vector in peri-infarction block, 772
T wave changes in normal newborn, 494
Embolism, pulmonary, postoperative, 451
Embryology
in transposition complexes of great vessels, 223, 226
and ventricles, 216
Epidemiology
arteriosclerotic heart disease in Israelis, by origin, 157
myocardial infarction in Bantu, 148
Erratum, cardioinhibitory sinus reflex, 416
Exercise, effect on hemodynamics, 142
Extracorporeal circulation
metabolic problems of, 671
neurologic complications of, during surgery, 480

Fellowship, writing awards 1963 announced, 421
Fever, postoperative, antibacterial therapy, 476
Fibrillation
atrial, relation to Ebstein's anomaly, 169
oxytocin, synthetic, effect of on, 523
Fluid and electrolytes
acid-base balance after cardiopulmonary bypass, 671
in acute renal failure and hemodialysis, 841
disturbances in hypothermia, 678
effects on transmembrane potential of myocardium and ECG, 656
magnesium deficiency in surgical patient, 667, 683
osmolality syndromes, 644, 650
potassium
controlled ouabain-induced arrhythmias, 692
experimental effect of I.V., in myocardial contractility, 686
level affects antiarrhythmic properties of quinidine-like substances, 702
in surgery for chronic renal failure, 317
use in surgical patient with diminished renal function, 639

Gastrointestinal disorders simulating coronary artery disease, 354
Geriatrics, cardiac and respiratory postoperative problems, 441
Gynecology, pregnant cardiac patient, better management with reduced mortality, 291

Hahnemann Symposium, 8th, on Cardiopulmonary Problems Before and After Surgery, see *Symposium*

Hamartoma, fibroelastic, a cause of anoxemic heart disease, 869
Heart
postpartum complications of, 439
rhythms of, effect of postural changes on, 505
Heart block
Adams-Stokes siezures during, and postural changes, 505
complete, with congenital atrial flutter, 575
Heart disease, valvular, amenable to surgery, 296
Heart failure, pre- and postoperative management in patients with congenital heart disease, 334
Hemodialysis
and acute renal failure, ECG changes during, 841

Hypertension
adrenergic mechanisms in treatment of, 711
complications of, during pregnancy, 286
left axis deviation with diabetes, 767
pargyline hydrochloride plus a thiazide in, 822
in surgical patient, medical considerations, 286
Hyponatremia
causes and treatment in hospitalized patient, 644, 683
Hypothalamus, stimulation of, induces cardiovascular changes in cats, 781
Hypothermia
acid-base and electrolytes in, 678
blood-stream and skin-cooling in myocardial infarction in dogs, 795
circulation in, 185
ECG changes in dogs given dextran, 792
in myocardial infarction with shock, experimental, 792, 795
refractory vs. postoperative irreversible shock, 470

Myocarditis, caused by Coxsackie virus, 736
Myocardium
changes during anesthesia in uremic patient, 317
degeneration of, postpartum, 439
effect of potassium on contractility of, in dogs, 686

New method
forward triangle formula for calculation of cardiac output, 119
hydrogen test in pulmonary wedge position, 240
intrathoracic circulatory pump for prolonged ventricular surgery, 399
Newborn
T wave changes in normal, 494
VCG and ECG in, 482

Osmolality, hyper-and hypo-, in surgery, 650, 683

Parasystole
types of, mechanisms, importance, 527
Pericarditis
Bouillier (1812) on diagnosis of, 539
cholesterol, 735
postcommissurotomy syndrome, 431
postpericardiotomy syndrome 436
tubercular, 735
Peri-infarction block, vector- and electrocardiogram in, 772
Peripheral vascular disease, drugs used in treatment, 203
Pharmacology (see *Drugs*)
Phlebogram
c wave, new hypothesis for generation of, 383
external jugular, reflects hemodynamics of right side of heart, 383
Phonocardiogram in diagnosis of sinus of Valsalva aneurysm, 544
Poisoning, carbon tetrachloride, ECG patterns in, 841
Position, effects of altered, on Adams-Stokes syndrome, 505
Positive pressure breathing
in atelectasis, 458
in bronchospasm, 457
Postcommissurotomy syndrome, postpericardiotomy, diagnosis and management, 431
Poststenotic dilatation, related to turbulence, 802
Preoperative medication, 444

Psychiatric complications of surgery, management, 477, 480
Pulmonary artery
banding of, successful treatment of common A-V canal, 80
compressing coronary artery, 406
Pulmonary atresia, with atrial flutter, 254
Pulmonary emphysema
chronic, as complication of surgery, 444
in evaluation for surgery, 324
management of, in preoperative patient, 324
Pulmonary tuberculosis
in evaluation for surgery, 327

Renal failure, acute, ECG changes during, and hemodialysis, 841
Renal function, diminished, surgery in patients with, 640
Respiratory vs. cardiac problems, postoperative, 441
Reviews
andrenergic mechanisms in hypertension, 711
apexcardiogram, normal and abnormal, 368
electrocardiogram in acute renal failure and hemodialysis, 841
parasystole, 527
pulmonary atresia, reported cases, 254
surgery for aortic valvular disease, 47
thromboangiitis obliterans, 107
transposition complexes, pathogenesis of, 216, 226, 233

Shock
anesthetic, physiology and types of, 589
bacteremic, etiology and treatment, 599
coronary, 628
etiology and classification, 587
hemorrhagic
effects of vasopressors in, 614
diagnosis and treatment, 589
from homologous blood exchange, 194
sympathetic blockade for, 619
therapy for in cardiac surgery, 624, 628
vasoconstrictors for, 595, 614, 628
Shunts, right to left and left to right, 544
Stenosis
functional subaortic, produced in animals, 395
pulmonary
simulated by cardiac rhabdomyosarcoma, 249
tricuspid, relative, 408
and ventricular septal defect, VCG in, 758
Surgery
arrhythmias during, controlled by digitalization or defibrillators, 464
assisted circulation during, 399
bleeding during, preventing, 313
cardiopulmonary bypass, acid-base balance during, 671
in chronic renal failure, clinical problems, 317
for coarctation of aorta, aortic stenosis and patent ductus arteriosus, staged, 570
for congenital aneurysm of sinus of Valsalva, 100
for congenital heart disease, 334
criteria for recommending, Symposium on, 1
in diabetic patient, 636
effect on pulmonary cardiac function, 444
electrocardiographic changes after, 516
evaluation and preparation of patients, 277–367
fluid and electrolyte disturbances during, 639, 670
magnesium deficiency during 667, 683
neurologic complications of extracorporeal circulation, 480
in patient on anticoagulant therapy, 309
in patients with cerebrovascular disease, 300
in patient with chronic renal failure, 317
in patient with coronary artery disease, 279
in patient with diminished renal function, 640
psychiatric complications of, 477, 480
for pulmonary atresia, 254
in pulmonary tuberculosis, evaluation and risks of, 327
